

Mechanical Assembler – Engaging and rewarding work environment.

Join AGS Manufacturing, Inc. as a Mechanical Assembler, where you will grow and make a difference at an innovative company! You will have the responsibility of assembling an entire product or component of a product and must work efficiently in both a group setting and independently. Employees on our assembly team rotate through all tasks assigned by their supervisor, rather than being assigned to a specific job on a permanent basis. Mechanical Assemblers are highly valued at AGS and may have the opportunity to contribute to management decisions.

If you are a motivated and high-energy individual, we encourage you to apply! Employees are provided competitive pay and a great benefits package.

AGS Manufacturing Inc. can evaluate standards of employment to anyone at any time.

Essential Work Activities

- Accurately read a tape measure and calculate measurements.
- Operate hand tools/power tools safely, confidently, and effectively.
- Review work orders and blueprints to ensure work is performed according to specifications.
- Willing and able to rotate through various tasks required in a particular production process.
- Determine work assignments, procedures, and communicate production level to management daily.
- Operate machinery and heavy equipment, such as a forklift, band saw, press, etc.
- Perform quality checks on parts/products and package finished products for shipment.
- Maintain production equipment and machinery.
- Participate in miscellaneous duties assigned from time to time.

Necessary Skills

- *Monitoring, Active Listening, Critical Thinking, Speaking, Reading, and Complex Problem Solving.*
