DALLAS/FT WORTH CONVERTERS LUNCH & LEARN

In today's environment where information is needed with limited time and resources available, we're bringing the knowledge experts and a mini trade show to you.

This seminar is open to independent and integrated corrugated converters interested in improving processes and maximizing productivity on their existing converting equipment. The morning session will include six 30 min presentations by the above industry leading manufacturers, with content focused on improving productivity and efficiency. The seminar session ends with a question-and-answers and lunch.

The afternoon is open for one-on-one discussion with the various manufactures in a tabletop style trade show. Providing the opportunity for more personal and detailed discussions of your facility's specific needs.
